

Kowloon West Terminus Hong Kong

West Kowloon station, also known as Hong Kong West Kowloon, is the southern terminus of and the only station on the Hong Kong section of the Guangzhou-Shenzhen-Hong Kong Express Rail Link (HSR). The station connects to China's HSR network across the border through dedicated tunnels and includes a Mainland Port Area where the laws of (Mainland) China are enforced. It was constructed by the MTR Corporation Limited as the project manager commissioned by the Hong Kong Government, through subcontractors.
