

supporting Singapore's public infrastructure

Housing & Development Board (HDB) Residential Estates

Supporting Public Sector Housing Across Singapore

Aalberts integrated piping systems is a trusted supplier for over 40 Housing & Development Board (HDB) residential estates and Home Improvement Programme projects across Singapore.

Changi Airport (Terminal 2 & Runway 3)

Supporting World-Class Aviation Infrastructure

VSH XPress copper press fittings were selected for works at Singapore Changi Airport, including Terminal 2 and Runway 3 developments. Recognised as one of the world's leading airports, Changi demands exceptional standards of quality, reliability and performance across every aspect of its infrastructure.

The use of VSH XPress within this landmark project demonstrates its suitability for large-scale, mission-critical environments where long-term system integrity is essential.

Ministry of Manpower (Bendemeer Service Centre)

Meeting the Requirements of Public Sector Projects

The Ministry of Manpower Bendemeer Service Centre is an important government facility serving businesses and residents across Singapore. VSH XPress copper press fittings were utilised within the project, demonstrating compliance with the stringent standards typically associated with public sector developments.

This reference reflects the trust placed in VSH XPress for institutional applications where durability, quality and dependable performance are essential.
